

## BANDAGE MACHINE

Log rolling, paper rapping and bandage cutting machine.

The machine rolls up the fibre as the length is been measured and cuts the fibre. The paper is cut to length and a string of glue is sprayed onto the paper. At the end of the log-roll the paper is rapped into the log roll and glued. The logs are then fed into the cutting machine to be end trimmed and cut to length.

### Technical data:

Fibre width 1100mm and a length of 2.5 to 3.5 meters,  
 Log diameter 55-60mm.  
 Bandage finished sizes 50mm to 200mm.

3-4 logs per minute.
