

CUT & DISPENSING SYSTEM

The cut and dispensing system measures the required length, cuts and delivers the product to the manual sewing station. This system is suitable for duvet, quilts and bedspreads.

Technical info:

The system can operate inline with a multi needle quilter, with a pick-up from a stacked trolley (pre cut panels) or from a roll of quilted material. Can deliver up too 4 manual sewing stations. The system reduces the handling time of the product.
