

CUTTING CONVEYOR TABLE

Semi-automatic cutting and stacking machine: The required length is measured out onto the conveyor the operator then cuts the material after the pattern, design or thread etc. The piece is then stacked over a trolley as the next piece is fed into the machine. This system is suitable for curtains, duvet covers, sheets, table cloths or other designer products.

Technical info:

The system can be equipped with automatic cutting.
The trolleys with the stacked products on are easy to move through production saving handling time.
