

LS 104

LONG SIDE SEWER

Over locks sews both sides of the material continually, can be placed inline with a multi needle machine for quilted materials and runs independent as the running speed alternates between high and low speed or direct after a unwinding station for rolls of material.

Technical info:

Max width: 3000mm.

Production sewing speed when alternating 3-12 meters per minute depending on requirements or continually 10-12 meters per minute.
