

MATTRESS BORDER MARKING, CUTTING AND STACKING

From a large roll of mattress border the system measures the required length of the mattress border, marks the border for different applications, cuts and pleats the border onto a conveyor leaving both ends accusable. The conveyor steps forward giving space for the next border.

Technical info:

Fast and easy change over from different width sizes of border rolls.
Colour marking for different applications, handles, ventilation holes etc.
Easy handling of the cut border with the ends free.
