

PILLOW TICK LONG & CROSS SEWING MACHINE

Pillow tick long and cross side sewer: the material is fed into the machine (max roll diameter 300mm) and the material is folded in half. The machine over locks sews the open material long sides together. The material tube is fed into the measuring station and then over lock sewn and cut at same time. Finished pillow ticks are then stacked on a conveyor.

Technical info:

Max: 80x80 cm
