

SEWING TABLE

The conveyor is synchronized with the sewing machine when sewing and reverses at high speed to assist turning the product. Suitable for large products (quilts, bedspreads etc.). Increased production and helps reduce the risk for repetitive injury.

Technical info:

The sewing table can be equipped with different types of sewing heads.
For better ergonomics it can also be equipped with hydraulic height adjustment from 80cm to 110cm.
Can be incorporated inline in a dispenser, folding or inspection system.
